

# Work With Us

## Get To Know Us First!

Freecharge a subsidiary of Axis Bank Limited founded in 2010, is a Fin-Tech organisation revolutionizing Financial Products through technology.

At our core, we're a creative company. Ideas and pixels is where we live and we love building magical products that make our users feel 'wow'. At Freecharge, you'll have the chance to do the best work of your life. We're on a journey to build something new, something different and something innovative & that requires passion to build such incredible products.

Come join us and shape the future of Fin-Tech.

## Do You Make The Cut?

If you enjoy pushing boundaries, challenging the status quo, and working with the latest technologies.

Then you might be the right team member we are looking for!

We're looking for an Automation Engineer to focus on product's quality and performance. You will run the tests across all our products releases and report any issues found to the corresponding development teams. We are involved in 80% in automation testing and 20% in manual testing. We treat our test automation as a first-class product, with development processes and code quality.
